

Farmacia Soft

Farmacia Soft, Nguyen Gobber

Farmacia Soft is a condensed sans-serif typeface for headlines, posters, and wordmarks. It is based on the Farmacia typeface and preserves its distinctive characteristics, including the slightly bent posture of the C, the expressive upward diagonal of the K, and the accentuated vertices of the M and W. For Farmacia Soft, all sharp corners were rounded, followed by optical corrections and further refinements, resulting in a gentler and noticeably warmer appearance. The typeface also includes circular alternates for the C, G, O, and Q, which introduce additional contrast and rhythm.

○ Once again, we encounter the phenomenon that type-faces—regardless of their optical legibility—trigger particular feelings on the part of readers simply ...

○ through their appearance, and can have a positive or negative impact. This seems to be pragmatic evidence to show that, over and above their primary and essential task of acting as a visual means of transport for language, type-faces are also able to communicate atmosphere. In this context, Spencer mentions analyses by Ovink and Zachrisson that reinforce this assumption. However, on the basis of an analysis of advertisements over a period of 50 years, Spencer believes ‘that findings of congeniality may have little temporal stability, and such an examination supports Warde’s view, that the choice of an appropriate typeface is a subconscious act, the effect of which is ephemeral. We may also reflect that sanserif letterforms which have been much used in this century to express the notion of ...
